## Best Hotel Hot Tubs

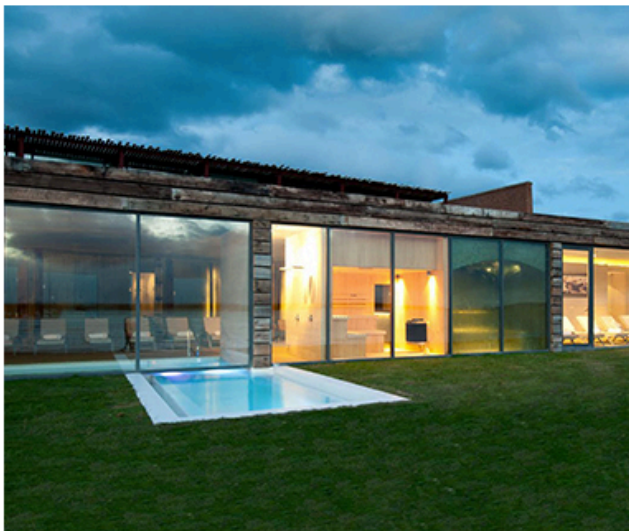

11 of 22

### The Singular, Patagonia, Chile

Facing the Last Hope Sound in the southern town of Puerto Bories, **The Singular** rewards visitors with a hot tub like no other on earth. Large metal jets spray into the aqua blue, bracingly hot square pool. As you ease yourself in, the rugged landscape of the fjord is visible through massive floor-to-ceiling windows. Care for a closer look and a dose of the chilly Patagonian air? Simply duck under the corner window panel and enjoy the outdoor section of this hot tub—and some of the world's most remote countryside. —*Jenny Adams*
