# ADVENTURE & TRAVEL

THE HOTEL

## Chile's Hot Spot

One of the more remote spots on earth is now home to a hotel that blends luxury, industrial chic and adventure. A converted factory set on a gorgeous fjord in southern Chile, The Singular Patagonia has a 3,000-square-foot spa and a restaurant that showcases local ingredients like tooth fish and white strawberries. The in-house expedition team can take guests trekking in Torres del Paine National Park, sailing on fjords or on dozens of other trips. *Opens November, from \$660 per night, [thesingular.com](http://thesingular.com)*
